### Nuraveda care

I am very much impressed with this software, it is very light and easy to use. Even a fresher can use it and the best part is, for every minor issue you get a prompt response. The team is always ready to help. I recommend this software

### CA Rahul Mistry

Wonderful Software, have been using it since the last few days and is extremely professional as well as hassle-free. Keep up your good work

NGOs, Logistics, FMCG, and MSME

## Why We Become The 1st Choice of Businesses?

### Invoicing and Billing

Create invoices, manage them, and track payments with just a few clicks.

### Inventory Management

Track the stocks in real-time and get notified about the stocks in demand to avoid overstocks or stockouts.

### Accounting and Bookkeeping

Automate tax computations, GSTIN validation, and data entry to ensure seamless financial management.

### Accounts Payable and Receivable

Prevent late payments and outstanding invoices proactively to encourage efficient cash flow.

### Bank reconciliation

Match every transaction automatically, track payments, and reconcile accounts efficiently.

### Financial Analytics & Reports

Unlock access to 35+ reports that outline insights into financial performance & business operations for better decision making.

### E-invoicing and E-way Billing

Generate IRN-compliant e-invoices as well as create and track e-way bills - all under one roof.

### Expense Tracking

Create expense entries to cut-down additional costs and take full control of your cash flow.

We Also Offer

**Purchase Order**

Speedup procurement process, eliminate manual entry errors, and stay updated with order status in a click.

**Barcode Printing**

Design your own barcode labels and print unlimited quantities effortlessly at your fingertips.

**Quotation Maker**

Customize your quotations with special notes and convert your potential clients into customers within minutes.
